Teman Usaha Rakyat: Development Of A Strategy To Accelerate Economic Escalation And Umkm Class Up In Banyuwangi

Mohamad Irfan¹, Iva Maskunatin², Sinta Tri Lestari³, Alfian Nur Rohman⁴, Elok Rosyidah⁵ ¹,²,³,⁴,⁵Faculty of Economics, University of 17 August 1945 Banyuwangi, Indonesia

ABSTRACT

Banyuwangi Regency is one of the affected districts, in terms of the economy experiencing a decline due to the Coronavirus Pandemic (Covid-19). The decline in economic growth in Banyuwangi Regency in 2020 is -0.03%. One of the sectors that can be used as a focus for improvement is UMKM. Teman Usaha Rakyat will provide assistance to the perpetrators UMKM overall. Such as improving product quality, marketing innovation, encouraging UMKM go-digital order, permit processing, certificates, good narrative writing, simple design and more. The purpose of the study is to find out whether the strategy of the Teman Usaha Rakyat program already able to raise the class UMKM in Banyuwangi and provide recommendations for program improvement by Amplification Plan Monitoring and Evaluation of mentoring activities for perpetrators UMKM upgrading in Banyuwangi. This research uses the method Research and Development (RnD). The results of the statistical test of the mean difference before and after treatment in the experimental group (perpetrators UMKM) with the help of the program SPSS 19 the mean value of the pre-assistance questionnaire was obtained = 65.66 and post-mentoring questionnaires = 82.00. This means that there is a positive and significant influence on the implementation of the Teman Usaha Rakyat program.

Keywords: Teman Usaha Rakyat, UMKM Upgrading, Banyuwangi

1. INTRODUCTION

The Covid-19 pandemic has had a tremendous impact on the economy. In 2020 the whole world faces an economic downturn and causes a very deep contraction as almost all countries carry out strict restrictions on mobility. In fact, many countries have implemented lockdowns which have direct consequences for the economy to decline very sharply (Indrawati, 2021).

Banyuwangi Regency is one of the affected regencies, in terms of the economy experiencing a decline due to the Corona Virus Pandemic (Covid-19). The decline in the economic growth of Banyuwangi Regency in 2020 of -0.03% was obtained from the results of the calculation of Banyuwangi Regency's economic growth (BPS, 2020).

In 2020, Banyuwangi Regency's economic growth during the Covid-19 pandemic showed the worst conditions. So it requires a strategy to be able to control in order to survive. In the midst of a
The impact of the Covid-19 pandemic has affected all aspects of life, especially in the economic sector. The most felt impact is from micro, small and medium enterprises (UMKM). The economic crisis caused by COVID-19 has caused a global economic recession that helped reduce the turnover of UMKM nationally because there are still many UMKM relying on direct marketing. Based on survey data from LIPI (Indonesian Institute of Sciences), it is known that during this COVID-19 pandemic, the efforts undertaken by UMKM actors have experienced a decline in sales of 94.69%. The application of physical distancing applied by the government during the Covid-19 pandemic has contributed significantly on the decline in sales (Nugroho, et al. 2020). Even though UMKM can be a solution to poverty alleviation in Indonesia (Supriyanto, 2006).

Facing these problems, UMKM in Banyuwangi Regency have a positive contribution to stay afloat to restore the economy, so that the Banyuwangi government pays more attention to escalation UMKM. The problem of capital financing causes a decline in the existence of UMKM in today's global competition. The main cause is due to the weakening of the global economy that affects the economy, where the problem can actually be slowed down by the emergence of UMKM as the foundation of the economy. These conditions show that the contribution of UMKM is not in line with the existence of escalation due to low capital financing. In the Escalation of UMKM in Banyuwangi Regency the government created the Teman Usaha Rakyat program as a Companion to improve the ability of UMKM.
actors in quality improvement products and so on and take policies in activities business economic management. So that through this assistance, the perpetrators UMKM are expected to be able to compete.

3. RESEARCH METHOD

This type of research is research and development (R&D). Borg & Gall (1983) explained that the process carried out to develop and validate research products. Data collection techniques are carried out through:

a. Observation
b. Interview
c. Document study
d. Questionnaire

Data analysis was carried out using quantitative methods with the aim of testing the effectiveness of the product, namely by testing $t$.

$$
t = \frac{X_1 - X_2}{\sqrt{\left(\frac{\sum X_1^2}{n_1} + \frac{\sum X_2^2}{n_2} - n_2\right) \left(\frac{1}{n_1} + \frac{1}{n_2}\right)}}
$$

Information:

- $X_1$ = sample average 1
- $X_2$ = sample average 2
- $n_1$ = Number of sample 1
- $n_2$ = Number of samples 2

4. RESULTS AND ANALYSIS

a. Data Analysis Teman Usaha Rakyat as a Facilitator for UMKM Upgrading in Banyuwangi.

After receiving assistance, UMKM actors immediately implement it in their respective businesses. The perpetrators were given time before the escort teams did controlling. This controlling is intended to see how far the actors are able to carry out the material that has been given.

The results of interviews with business actors who feel helped by the Teman Usaha Rakyat program. Mr Tatang said “Alhamdulillah mbak, berkat Teman Usaha Rakyat. Aku saiki tambah pinter, pinter promosi produk sing wis tak buat, amergo wis memahami media sosial sing wes pernah diajarke karo pendamping”.

The results of interviews from several UMKM actors who are not satisfied with the assistance Teman Usaha Rakyat say: Mr Idrus said “Sak marine ngomongno produk terus diajari media sosial lanjutning arah instagram, facebook, lan arep dibukakaken toko online, iku kabeh sing sampek merono merto pendampinge sing teko merene maning ya mbak, mas”.

There is a Teman Usaha Rakyat some participants feel very helpful and able to develop their business, but there are also those who feel less helpful and less targeted that seem subjective and unprofessional. Therefore, it is necessary to add stages in the form of recommendations for Amplification Plan Monitoring and Evaluation.

b. Program Development Teman Usaha Rakyat

Program development stage Teman Usaha Rakyat namely by adding stages, namely recommendations for Amplification Plan Monitoring and Evaluation. The purpose of the Amplification Plan Monitoring and Evaluation is divided into 2 methods. The first is Monitoring, which is to monitor, monitor, ensure and guarantee the program's progress of Teman Usaha Rakyat. Second Evaluation in this case to assess and reveal success Teman Usaha Rakyat. The implementation of the Amplification Plan Monitoring and Evaluation can involve external parties such as practitioners, academics, inspectorates and legislatures. External parties such as practitioners, academics, inspectorates and legislatures are a unit that
must be involved in the Amplification Plan Monitoring and Evaluation. So that the assessment and results provided are more objective and professional.

c. **Program Effectiveness Test Results Teman Usaha Rakyat**

The results of the statistical test of the mean difference before and after treatment in the experimental group (perpetrator UMKM) with the help of the program SPSS 19 the mean value of the pre-assistance questionnaire was obtained = 65.66 and post-mentoring questionnaires = 82.00. This means that there is a positive and significant influence on the implementation of the Teman Usaha Rakyat program. While the test results \( t = 6.621 \) with significance level \( 0.000 < 0.025 \). T test value with a significance level smaller than \( 0.025 (0.000<0.025) \).

5. **CONCLUSION**

Strategy of the Teman Usaha Rakyat program has been able to raise the class of UMKM in Banyuwangi and provide recommendations for program improvements with the Amplification Plan Monitoring and Evaluation of mentoring activities for UMKM actors to upgrade their classes in Banyuwangi. The results of the effectiveness test show that there is a positive and significant influence on the implementation of the Teman Usaha Rakyat program.

There are limitations experienced in this study so that improvements are needed in further research. It is recommended for further researchers to be able to add other variables and differentiating methods used.

**ACKNOWLEDGEMENTS**

We give thanks to God Almighty, because by His grace, we were able to complete the Humanities Research Student Creativity Program (PKM-RSH). This research was conducted in order to fulfill the Student Creativity Program launched by the Directorate General of Higher Education under the management of Belmawa.

Team PKM-RSH by title Teman Usaha Rakyat: Development of Strategy for Accelerating Economic Escalation and UMKM Upgrading in Banyuwangi would like to say a big thank you to:

1. Directorate General of Higher Education Belmawa who has approved and funded our PKM proposal.
2. The University of 17 August 1945 Banyuwangi who has provided facilities and helped fund our proposal.
3. Mrs. Elok Rosyidah, S.E,. M.M as our Advisor who has been patient with us from the beginning of the proposal until the completion of our research.
4. The parties involved that we cannot mention one by one, thank you for helping us.
